

**Biography of Harry Zarek  
President and CEO  
Compugen Inc.**

Founded in 1981 by Harry Zarek, Compugen Inc. is one of Canada's largest IT Solution Providers. Under Harry's stewardship, Compugen has realized growth that has consistently exceeded the industry average. Canadian owned and operated; headquartered in Richmond Hill, Ontario Compugen has 1,000 highly qualified staff in fourteen offices across Canada. The company provides technology infrastructure solutions focused on medium and large sized corporations and governments. Compugen reported revenues of over \$400M in 2011

In 2010, Compugen moved to a new headquarter building consisting of state of the art work space including a national call center, data center and ISO-certified configuration center .

Compugen has initiated a significant business transformation to anticipate the changes that are confronting our industry. The company has reorganized into two divisions: a Technology Lifecycle Services Business and a Technology Solutions Business.

Within the Lifecycle Business, we are bringing together all our services and products around end user device management with the goal of offering a bundled service on a recurring revenue model attached to a wide variety of devices including smartphones and tablets in addition to traditional desktop, laptops and printers.

Our Technology Solutions Business will focus on assisting customers to enable solutions around datacenter and cloud focused on a Business Architecture approach. It brings together the technology platforms for Servers, Storage, Networking together with Virtualization and Microsoft Infrastructure.

Harry focuses on sales and marketing activities and developing the long-term business strategy to position the company as a trusted business partner to its customers and vendors.

Harry holds an undergraduate degree in Engineering Science and a Ph.D. in Physics from the University of Toronto. An active investor and member of the Board of Directors of a number of early stage technology companies in Canada and the US. Harry sits on the Board of RuggedCom Inc., a Smart Grid Company that had its IPO on the TSX in the summer of 2007.
